

■ **Atlantic / Trans Pacific Trades -  
Implementation of a Montreal Low Water Additional**

July 24, 2013

Dear Customer,

The St. Lawrence River water levels have dropped earlier this year. Latest levels do not show any improvement and the situation will most likely continue or even deteriorate in the next months.

In line with our pre advice we would like to inform you that with effect from **August 05, 2013** Hapag-Lloyd will implement a Low Water Additional for all cargo moving via the port of Montreal

- **Low Water surcharge (LWS) from North Europe, the Mediterranean and Africa as well as East Asia, Indian Sub-Continent and Middle East**

To / via	USD / 20'	USD / 40'
Montreal	100	150

- **Low Water surcharge (LWS) to North Europe, the Mediterranean and Africa as well as East Asia, Indian Sub-Continent and Middle East**

From / via	USD / 20'	USD / 40'
Montreal	60	95

Services concerned are:

**AT1** St. Lawrence Cont. Service-Route 1 (SLCS1)  
**AT2** St. Lawrence Cont. Service-Route 2 (SLCS2)  
**MCA** JMCS Route A

For further information please contact your local Hapag-Lloyd sales representative.

Kind regards,

Hapag-Lloyd AG
